

Product Description

Plate, Henro-Plate

Item no. 1400.100

Applications

- The plate can be used by children or adults.
- The plate has a high back and a low front, which gives a sloped design.
- The sloped design allows the food to slide down to one side, and thus making eating with one hand possible.
- The plate is delivered with small rubber feet that can be attached on the bottom. This way the plate will stand firmly on the table.
- Since the plate is microwave safe, food can be heated directly on the plate.
- The plate has a utility temperature between 0-100°C.

Maintenance

- **Henro-Plate** is dishwasher and microwave safe
